The Oklahoma Grain & Feed Association (OGFA) represents our industry before regulatory agencies, advocates for state and federal legislation to move the industry forward, and engages in activities that will benefit and encourage interest in agriculture. OGFA provides many continuing education opportunities and other meetings for members throughout the year.

OGFA is governed by a dedicated board elected by the membership and led by President and Chief Executive Officer Jeff Hickman, former Speaker of the Oklahoma House of Representatives who is also the fifth generation of his family to own and farm land in northwest Oklahoma. Speaker Hickman's role is to keep OGFA actively engaged with the National Grain & Feed Association, build on our relationships with Oklahoma's Congressional delegation and be a voice for research and workforce development as the immediate past chairman of the Oklahoma State Regents for Higher Education.

OGFA has a strong presence for advocacy at the State Capitol through our government affairs team of Jami Longacre and Lori Peterson. Two of the most respected government affairs professionals in Oklahoma and each with deep personal roots in agriculture, Jami's experience includes her time at the Oklahoma Department of Agriculture, the Oklahoma Cattlemen's Association and Beef Council while Lori's resume includes the Oklahoma Railroad Association and Oklahoma Farm Bureau, and as an attorney, she provides insightful guidance to the OGFA family of associations on the legislative and regulatory process. Together they complement Speaker Hickman's experience to ensure that OGFA and our affiliate organizations have a respected presence when important policy discussions are happening in Oklahoma and in Washington, D.C.

Tammy Miller brings more than 41 years of service to OGFA and is an invaluable resource to our members who need assistance or expertise on most any issue encountered. Ashley Tucker Randolph leads OGFA communications and marketing efforts and she has experience working in sales and in the grain and feed industry before joining OGFA. Through the direct and active involvement and input of our members, OGFA is able to effectively serve the agriculture industry.
